- Thursday, 20 Mar: Mother's Day (tentative)
- Thursday, 27 Mar: Parent-Teacher Conferences
- Sunday, 30 Mar: Holiday (End of Term & Eid Al Fitr) starts

## ● Ramadan Greetings

AIA wishes you and your families Ramadan Kareem! May this month bring you endless blessings, forgiveness, prosperity, and inner peace.

## ● Word of Thanks

AIA Family would like to thank its parents who were involved in the bus accident last Saturday, and those that had children involved, for their understanding and support throughout this difficult time, and for believing in us!

To our dear students - You have been in our thoughts and prayers everyday and we thank God for your full recovery. We are beyond relieved to have seen each and everyone one of you back in school this week. We are in awe of your strength and dedidcation!

To our teachers - We thank you for your calmness and quick action to take care of the students and mothers, putting your safety aside to help them. We are lucky to have you in our team!

And above all - Thank you God for their safety and for watching over them الحمد لله. We are forever grateful!

# Grade 1 Assembly

## Thursday, 20th February 2025

Grade 1 students showcased their learning in the How We Organize Ourselves assembly, exploring how communities build systems for living and working together. Through songs, skits, and speeches, they highlighted the importance of roles and responsibilities while demonstrating the Communicator learner profile with enthusiasm and teamwork!

## MUN Conference

**Wednesday, 19th February - Saturday, 22nd February 2025**

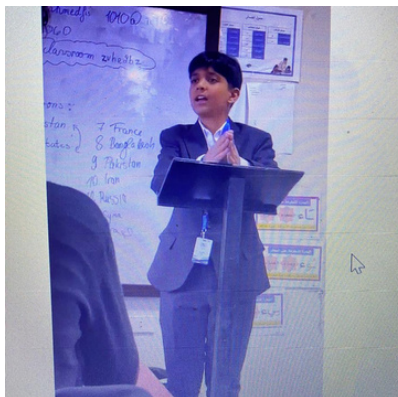

A great experience at HIAMUN (Hayah International Academy), Cairo's only international MUN conference! Our delegates made us proud, earning two Honorable Recognitions (Eyad Abdelkader and Seif Ezzeldeen) and being featured in the special newsletter for the best comeback in debate and the most interesting Points of Information! Beyond the awards, our students gained valuable skills, built new friendships, and created unforgettable memories. Here's to more success ahead!

## MUN Conference

**Thursday, 20th February - Saturday, 22nd February 2025**

While our team made an impact at HIAMUN in Cairo, our delegates also fiercely debated at Future MUN in Alexandria. A special congratulations to Adam Ihab, Delegate of Sudan in UNICEF, who has tirelessly pursued the Best Delegate Award—and this time, with his dedication and sharp debating skills, he achieved his goal and won it! Proud of all our delegates for their passion, hard work, and commitment to diplomacy.

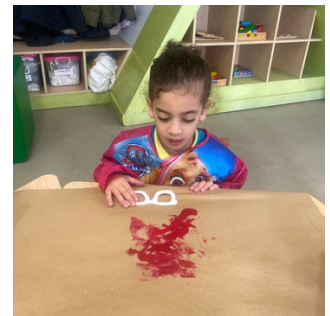

# AROUND THE CLASSROOMS

## PRE-K

### Creative Explorers

PRE-K A students are crafting scarves and sunglasses, learning how to care for ourselves and others through the changing seasons. Discovering the fun in weather while expressing our creativity!

### Hands-On Learning

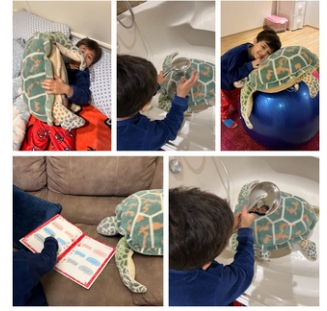

PRE-K A students are exploring the sound /o/ through fun, interactive activities! Engaging their senses and making connections as they discover the magic of language!"

## PRE-K-K

PRE-K B students Lilia, Ghalia, Dalida, Mourad, Omar, Sofia, Malek, Khadija and Zain had an exciting day together with their class turtle! They played together, sand and danced together, spent quality time, read bedtime stories, watched TV, and prepared for bedtime together.

Warm hearts and tasty treats! Hamza, Yassin Ahmed and Malek showed wonderful caring and responsibility by making delicious winter snacks with their families. Through this activity, they learned how small acts of kindness can make a big difference—just like true IB learners who care for others and take action in their community.

# K1

K1 A and K1 B students explored the world of weight. Using a real scale, they discovered the difference between heavy and light objects. Through hands-on learning, they understood why scales are important and how they help us compare weights.

K1 A learners had fun fishing for the /f/ sound among different sounds, helping them to recognize it.

# K1

K1 A learners explored different kinds of materials in their Unit of Inquiry by creating boats from recycled materials. They had a great time designing and testing their creations!

K1 B students went on an exciting adventure, just like in *We're Going on a Bear Hunt*! They swished through the tall grass, splashed in the cool river, squelched in the sticky mud, braved the deep, dark forest, felt the chill of a whirling snowstorm, and tiptoed into the bear's cave! Throughout the journey, they explored their feelings — excitement, curiosity, bravery, and joy — as they experienced each natural element.

## K2

K2 B students embraced the outdoors for circle time – a refreshing change that brought fresh air, new perspectives, and plenty of learning in the garden!

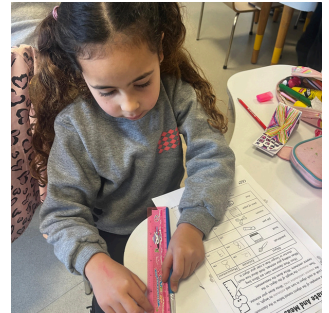

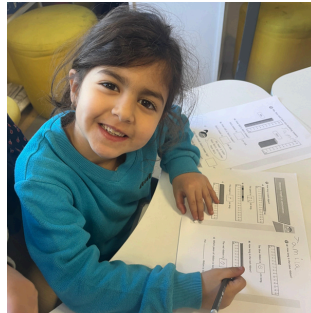

During reading time, K2 B students bring the classroom to life with stories! Whether they're reading independently, sharing with friends, or listening to different stories and discuss it together, every session sparks imagination and learning!

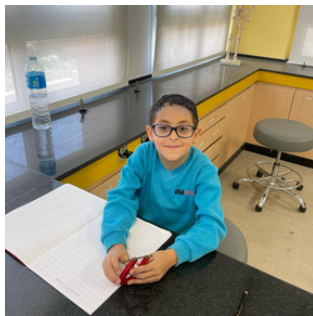

## Grade 1

Grade 1 students explored measurement by using irregular units to compare and measure objects in a fun and hands-on way!

## Grade 3

Grade 3 young explorers are taking action and experimenting with magnetic force in the lab! They are observing which objects are attracted to magnets and which are not, while also discovering that opposite sides of a magnet attract. Hands-on learning at its best!

# BEYOND THE CLASSROOMS

## TRIPS

K1 A and K1 B students had an amazing adventure at Africa Park, where they explored how animals, their habitats, and food chains are all connected. From observing majestic lions to learning about the plants they rely on, they discovered the delicate balance that keeps our ecosystems thriving. A hands-on lesson in nature's interconnectedness!
